End of the Year Assessments

Staff and students are working hard to complete end of the year benchmark assessments including PALS for 4K, and iReady, Fountas and Pinnell, and AIMSweb for grades K - 5. All of these literacy and math assessments demonstrate your child's growth for this school year. They also provide great information for next year's staff to support the academic strengths and target areas for your child. You will learn more about the results of these assessments in your child's report card.

Wrapping Up the Year

As I write this final monthly memo, I am reflecting on all of the wonderful opportunities and experiences that have occurred this school year. Then, I look ahead at all of the exciting events that are still to come... spring concerts, field trips, field day, clap-outs, awards ceremonies... the list goes on and on. We could not have done it without you. **THANK YOU** for being active participants in your child's education. Being a parent is extremely hard work. It is the hardest job there is. Being a partner with your child's teachers only makes the school experience more positive, meaningful, and effective. I am sure you have heard the saying, "It takes a village to raise a child". That statement speaks volumes when we all work together to model and support a **growth mindset** with our children. Thank you for all you do to make this happen at home because we are working just as hard at school!
