

What is the ROOTS Program?

On-site mental health therapy delivered by a licensed mental health therapist who specializes in working with children and adolescents. The therapist is able to provide mental health therapy similar to what a client would receive at the clinic, onsite in the school.

How do I access services?

Families can access the ROOTS Program (Oakfield's district mental health services) by calling 920-583-3141 or by calling their student's school counselor. Parents/guardians will be required to complete initial referral paperwork as well as consent forms in order for their students to access services.

Our provider accepts a variety of insurances. You will be asked to provide insurance information as our therapist bills insurance companies similar to services in a clinic setting. Don't have insurance? Don't let this deter you from referring a student. There are opportunities available to still access services.

ROOTS Program

Reaching Our Oaks Through Services

Building connections, providing support, and promoting student health and well-being.

The School District of Oakfield

200 E. White Street
Oakfield, WI 53065

What is the ROOTS Program?

The School District of Oakfield is committed to promoting the health and wellness of all students. We are proud to offer a continuum of emotional and mental health support to meet our student's needs.

In partnership with local agencies, the School District of Oakfield offers mental health services beyond what is offered in a typical school setting. These services are provided by a licensed therapist, that is available during the school day, to meet the needs of our students.

**Our Roots Run Deep
Our Branches Stretch Far**

Referral Process

Parent/guardian is interested in their child starting mental health therapy through the ROOTS program.

Parent/guardian calls their child's school counselor who will collect the contact information and refer to the mental health navigator

Or

Parent/guardian calls the mental health navigator at 920-583-3141 to schedule a meeting with the mental health navigator to complete the necessary paperwork for their child to begin services.

The mental health navigator will forward the referral packet on to the provider. The provider will contact the student's parent/guardian to schedule an intake appointment; parent/guardian will need to attend the initial appointment.
