Financial Background

Over the past year, the District has worked hard to be better stewards of the taxpayers' dollars. As a result, the School District of Oakfield's tax mill rate, which is used to calculate property taxes, declined by \$1.21.

Funding to Support Operations

In 2014, our community generously supported the District with a six-year operating referendum. The referendum provided \$1.2 million that allowed the District to maintain the quality services and programs our community has come to expect. In addition, these funds were utilized to complete the following projects:

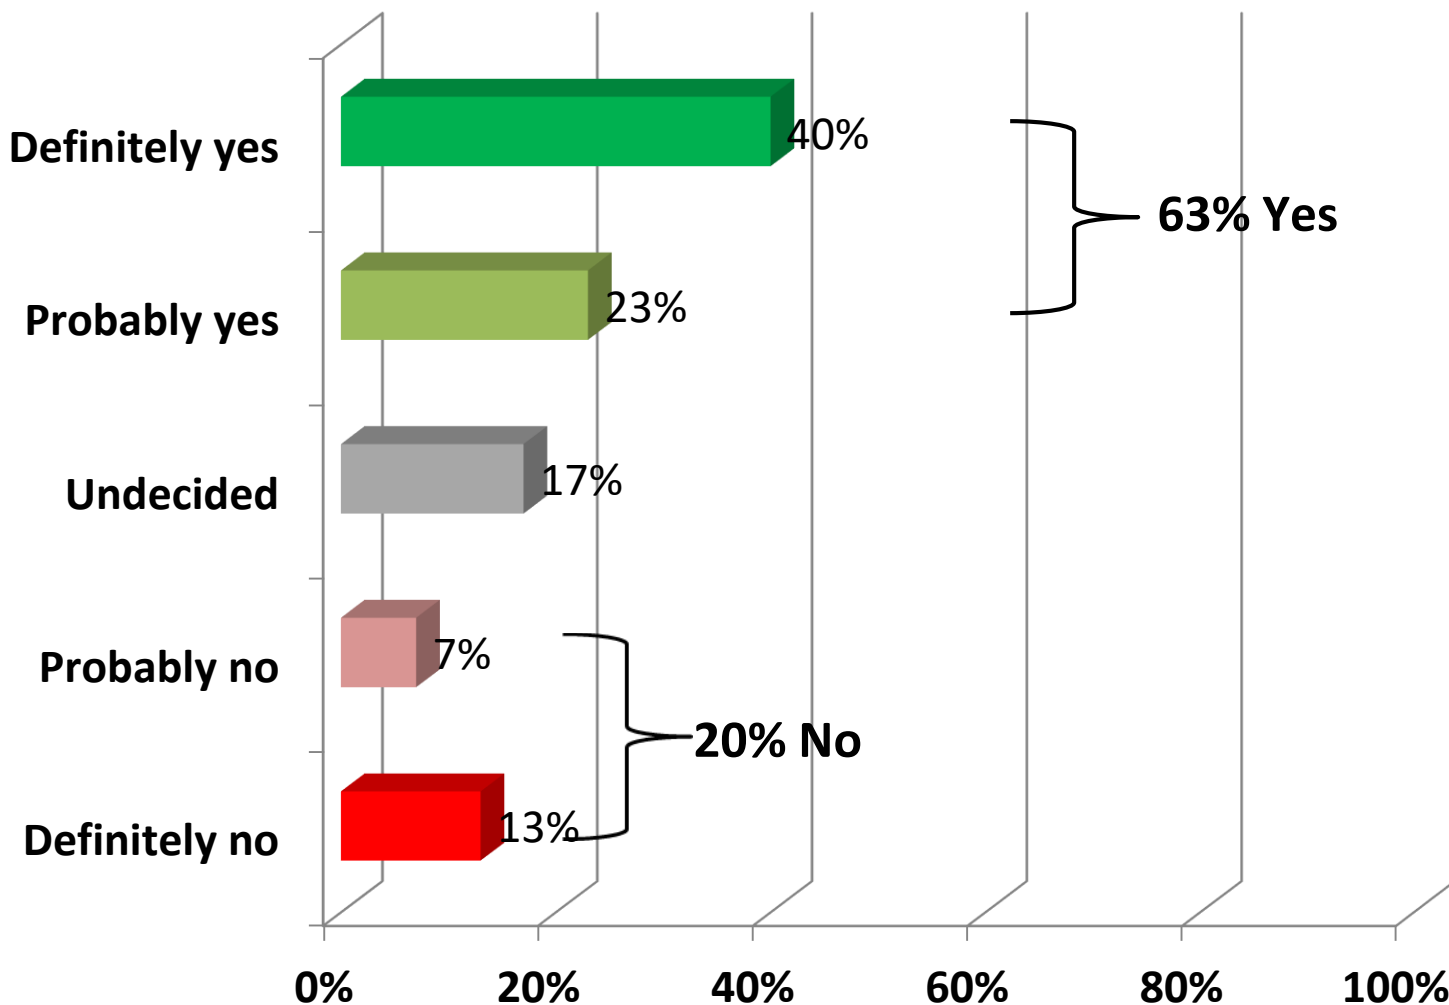

- Renovated the instructional media center (library)
- Replaced flooring in the hallways and cafeterias
- Added carpeting in classrooms at both schools
- Replaced middle/high school lockers
- Replaced gym flooring and bleachers
- Repaired middle/high school windows and roof sections
- Converted two classrooms into a modern science lab
- Replaced the middle/high school fire alarm system
- Resurfaced parking lots
- Added handicap accessible entrance doors
- Increased access to technology for all students

Next year, the funding from the 2014 referendum will end. In order to maintain current programs and services, voters will need to renew an operational referendum. However, due to careful planning, improved operating efficiencies and increased student enrollment, the funding needed will be lower than in previous years.

Would you support renewing the operational referendum for \$1.1 million for each of the next five years?

Representing a projected tax mill rate lower than the 2018-2019 rate of \$10.22.
